## ASSURANCE STATEMENTS

- 1) Professionally acceptable standards governing the care, treatment, and use of animals including appropriate use of anesthetic, analgesic, and tranquilizing drugs, prior to, during, and following actual research, teaching, testing, surgery, or experimentation were followed by this research facility.
- 2) Each principal investigator has considered alternatives to painful procedures.
- 3) This facility is adhering to the standards and regulations under the Act, and it has required that exceptions to the standards and regulations be specified and explained by the principal investigator and approved by the Institutional Animal Care and Use Committee (IACUC). A summary of all the exceptions is attached to this annual report. In addition to identifying the IACUC-approved exceptions, this summary includes a brief explanation of the exceptions, as well as the species and number of animals affected.
- 4) The attending veterinarian for this research facility has appropriate authority to ensure the provision of adequate veterinary care and to oversee the adequacy of other aspects of animal care and use.

## Column E Explanation

This form is intended as an aid to completing the Column E explanation. It is not an official form and its use is voluntary. Names, addresses, protocols, veterinary care programs, and the like, are not required as part of an explanation. A Column E explanation must be written so as to be understood by lay persons as well as scientists.

1. Registration Number: 14-R-0020
2. Number 1 of animals used in this study.
3. Species (common name) rabbit of animals used in this study.
4. Explain the procedure producing pain and/or distress.

One rabbit was euthanized with carbon dioxide by an investigator who was not adequately trained to euthanize rabbits. This was cited on the July 25, 2006 USDA inspection report by Dr. Chafel, and reported to the USDA on July 28, 2006. The incident report and a copy of the USDA inspection report are attached.

5. Provide scientific justification why pain and/or distress could not be relieved. State methods or means used to determine that pain and or distress relief would interfere with test results. (For Federally mandated testing, see Item 6 below).

Not applicable.

6. What, if any, federal regulations require this procedure? Cite the agency, the code of Federal Regulations (CFR) title number, and the specific section number (e.g., APHIS, 9 CFR 113.102).

Not applicable.
